

- ✦ Fully project managed for you, no need for an architect
- ✦ No need for independent structural calculations
- ✦ Reliable timelines
- ✦ Cost certainty and clear pricing
- ✦ Keep energy bills low
- ✦ Lower emissions
- ✦ Zero waste production methods
- ✦ Increased comfort indoors
- ✦ Save weeks or months off build times
- ✦ Rapid connection technology
- ✦ Build in any weather
- ✦ Less mess and disruption
- ✦ Vaulted, sloped or flat ceilings
- ✦ Any Ultraframe Roof System
- ✦ Any wall finish including brick, render or cedar
- ✦ Windows and doors anywhere, any style, any shape
- ✦ Unrivalled choice of rooflights
- ✦ Designed with advanced manufacturing software
- ✦ Built by a trained and experienced hup! build team
- ✦ Made to measure components for a perfect build, every time
- ✦ 40% the carbon foot print of a brick wall
- ✦ Zero waste in production methods
- ✦ No site waste to dispose of
- ✦ Less carbon emissions as hup! uses less energy to heat than brick
- ✦ Re-use current basework
- ✦ Manufactured in the UK
- ✦ ISO 140001 Registered Environmental Management System
- ✦ Minimal on-site water usage
- ✦ Five Times More Energy Efficient - Easy Building Regulations
- ✦ Less Trades – Easy Project Management
- ✦ Five Times Faster to Build
- ✦ Design Flexibility
- ✦ Engineered by Ultraframe – High Quality Finish
- ✦ More floor space than traditional build
- ✦ Adds considerable value to any home
- ✦ Light enough to be installed on existing bases

hup!  
The better way to build
